21 JUL 1966

MEMORANDUM FOR: Comptroller, OSA

SUBJECT : FY-67 Funds Requirements for [redacted]  
[redacted] (Formerly Project [redacted]).

25X1A

25X1A

REFERENCES : A. [redacted] (OUT 40270) 10 November 1965  
B. IDEA 2998-66, 27 June 1966  
C. [redacted] (IN 73750) 24 November 1965  
D. [redacted] (OUT 27352) 14 July 1966

25X1A

1. Reference B advises that the unclassified nickname [redacted] has been assigned to the project formerly referred to as "Project [redacted]". The Security Staff is currently identifying certain OSA functions/individuals to be given special [redacted] briefings on this project.

25X1A

2. Essentially, OSA participation involves support through a number of Lockheed engineering and production tasks, followed with test flights employing IDEALIST Articles. The DDS&T objective is for an operational ready package by 1 March 1967.

3. Reference A gave initial approval to Lockheed for proceeding with Project task actions, including a request for cost figures. [redacted]

25X1A

4. Reference D is a recent request for Lockheed to manufacture and assemble 8 pylons and 10 "dummy" pods, obtain and install 2 transponders, plus performance of tests. The message also requests Lockheed furnish this Headquarters with cost data.
